Procedure Date:

TATTOO LASER TREATMENT AFTER CARE INSTRUCTIONS

- Keep dressing on for 24 hours.
 - Keep the area clean and dry.
 - Remove dressing after 24 hours.
 - After 24 hours remove dressing, wash, gently dry, and apply healing ointment (i.e. vaseline, aquaphor, or other antibiotic ointment) twice a day for 1 week.
 - A dressing may be applied if necessary.
 - Call the office if there is any blistering.
 - If blistering occurs, do not pop blisters. Apply ointment and bandaid or non-stick dressing on blisters.
 - Report any signs of possible infection. (i.e. redness, pain, discharge)
 - Keep area protected from the sun until completely healed.
 - Wear a minimum of SPF 30+ broad spectrum sunscreen every day.
-
